## SUMMARY

Product-minded builder and community leader from Kerala with real-world experience shipping user-facing products, leading cross-functional teams, and solving problems from first principles. Interned at Pratham Books (StoryWeaver) as a Scrum Lead and at Xyvin Technologies as a Software Developer. Passionate about understanding user needs, designing useful workflows, and turning ideas into impactful products. Seeking a Product Intern or Associate Product Manager role to grow at the intersection of people, process, and product.

## EDUCATION

**College of Engineering Karunagappally** Kollam, Kerala  
*B.Tech in Computer Science and Engineering — APJ Abdul Kalam Technological University* Sep 2023 – June 2027

## EXPERIENCE

**Product & Frontend Intern — StoryWeaver Catalogue** Nov 2025 – Mar 2026  
*Pratham Books · StoryWeaver (India's first Digital Public Good for early reading)* Remote

- **Scrum Lead:** Coordinated a cross-functional team, facilitated sprint planning, tracked deliverables, and ensured steady progress toward a shared product goal — balancing technical execution with team alignment.
- Translated a complex distribution problem into a clear product solution: designed a multilingual content catalogue that made it easier for global partners to discover, filter, and access children's stories offline.
- Mapped out user workflows for authorized partners — identifying friction in content discovery — and shaped an intuitive interface around their actual use patterns (filter by Reading Level, Language, Category).
- Contributed to defining the product's scope and experience from a Proof of Concept stage; balanced user needs with technical feasibility throughout the build.

**Software & Product Intern** Jun 2024 – Sep 2024  
*Xyvin Technologies Pvt. Ltd.* Kerala, India

- Participated in product sprints — contributed to brainstorming, requirement discussions, and cross-team coordination alongside engineering and design stakeholders.
- Identified usability gaps and stability issues in production; proposed and implemented targeted improvements that directly enhanced the end-user experience.
- Developed a new product feature from ideation to delivery, gaining end-to-end exposure to the product development lifecycle.
- Maintained clear technical documentation to support product continuity, onboarding, and decision-making across teams.

## PROJECTS

**StoryWeaver OPDS Catalogue** | Repo 2025 – 2026  
• Designed a multilingual content discovery experience for Pratham Books — enabling partners worldwide to browse, filter, and bulk-download children's literature for offline use in underserved communities.

**EasyResumeMaker** | Repo 2026  
• Identified the friction of manual resume building and built a zero-friction solution: paste any portfolio or GitHub URL and receive a professional resume instantly. Focused entirely on reducing user effort. 3 stars.

**NutriDecide** | Repo 2025 – 2026  
• Built a mobile app to simplify everyday nutrition decisions — starting from a real user problem and iterating toward a practical solution through continuous feedback loops.

**Idea-Thattukada** | Repo 2024  
• Solved a personal pain point: ideas vanishing during research. Built a lightweight browser tool to capture thoughts in context — instant, frictionless, zero interruption to workflow. **#1 ranked** on portfolio, 6 stars.

## SKILLS

---

**Product:** User Research, Workflow Design, Problem Framing, Agile/Scrum, Sprint Planning, Roadmapping

**Collaboration:** Cross-functional Coordination, Stakeholder Communication, Technical Documentation

**Tools:** Figma (basic), GitHub, Notion, Vercel, Google Workspace

**Technical (working knowledge):** React.js, Next.js, TypeScript, REST APIs — enough to work fluently with engineering teams

## LEADERSHIP & COMMUNITY

---

### Council Member

*TinkerHub Foundation*

Nov 2025 – Present

*Kochi, Kerala (Hybrid)*

- Contribute to national-level strategy at TinkerHub — identifying recurring challenges across engineering campuses, co-designing programs, and shaping initiatives that help campus chapters operate more effectively.

### Campus Lead

*TinkerHub CE Karunagappally*

Jun 2025 – May 2026

*Kollam, Kerala*

- Owned the end-to-end operations of the campus chapter — planning events, managing a team of volunteers, and driving consistent community engagement throughout the academic year.

### Co-Lead & Tech Lead

*TinkerHub CE Karunagappally / FOSS CEKnpv*

Aug 2024 – May 2026

*Kollam, Kerala*

- Ran workshops, coordinated cross-team efforts, and helped onboard peers into open source — building systems for knowledge sharing that outlasted individual events.

### Student Activities Coordinator

*Mulearn KNP · College of Engineering Karunagappally*

Jul 2024 – May 2025

*Kollam, Kerala*

- Planned and coordinated campus activities across diverse student groups — managing logistics, communication, and team dynamics to deliver smooth, well-attended events.

### Venue Operations Lead — Tink-Her-Hack 4.0 / WMC 2026

*Kerala Women in Tech Hackathon*

Mar 2026

*Kerala*

- Oversaw on-ground logistics and coordination for one of Kerala's prominent women-in-tech events — ensuring seamless execution across multiple concurrent tracks.

## ADDITIONAL

---

**Writing:** Publishes on Substack about shipping in public, open source, and product thinking

**Mentorship:** Served as Hackathon Mentor; Panel Discussion Guest at Winter Camp 2025

**Open Source:** 113 GitHub repositories · 467 yearly contributions — consistent builder and learner in public
